

Budget Billing

Budget billing is available to ANEC consumers who have abnormally high usage for certain periods of the year and would like to levelize their payments. Contact our office to see if you qualify.

When You Move

When you move, you must call us to disconnect service. Each member is responsible for any charges while the meter is in his or her name. It's also important to report a forwarding address so you will receive future capital credit retirements.

Disconnection for Non-Payment

Any account with a past-due balance that is not paid by the date indicated on the bill is subject to disconnection without further notice. If disconnected, payment of all fees and total amount due will be required before service is restored. An additional deposit may also be required.
